BTECH (ITDS/CFIS)| Sem VII

Name of Assignment: Continuous Assignment-1

Course Name: Research Methodology

Faculty Name: Parmeshwari Aland

Assignment Number: 01

Learning Outcomes:

Date of Assignment: September 2026

Assignment Deadline: October 2026

Assessment Brief:

You are tasked with creating a structured and comprehensive research paper outline, supported by relevant data and literature. This includes defining your research area, selecting a topic, designing a title, and writing an introduction and abstract for the paper.

List of Tasks:

1. Define research and its purpose.
2. Select a research area and justify your choice.
3. Identify and articulate a specific research topic.
4. Design a research title that aligns with your interest.
5. Conduct a preliminary review of the literature and findings.
6. Gather relevant data, such as research papers, to support your research.

LO	Learning Outcome	In this assessment, you will have the opportunity to present evidence that shows you can:
LO1	Define the concept of research.	Explain what research is, describe its significance, and differentiate it from other methods of inquiry.
LO2	Choose a relevant research area	Identify a broad area of interest and justify its relevance to academic or professional contexts.
LO3	Identify and refine a research topic	Narrow down a general research area to a specific and focused topic suitable for detailed study.
LO4	Design an effective research title	Create a concise, informative, and precise title that accurately represents the study's goals and scope.
LO5	Conduct preliminary findings and analysis	Review existing literature, identify gaps, and synthesise key points relevant to your topic.
LO6	Gather and organise relevant data	Collect data through suitable methods and organise it effectively to support the research objectives.
LO7	Develop a structured research paper outline	Create a logical and comprehensive outline covering all major sections of a research paper.

7. Prepare an Excel sheet with an approximate list of 25+ reference papers.

Designation: Asst. Professor	Designation:	Designation:
Signature: P.V. Aland	Signature:	Signature:

LO8	**Write an introduction and abstract**	Draft a strong introduction and abstract that set the stage for the research and summarise key findings.

8. Gather data in Excel sheet format with attachments of research papers.

Constraints:

- **Plagiarism:** Ensure original work with proper citations where required.
- **Timeline:** All tasks must be completed and submitted by the specified deadline.

Format: Use APA format for citations and references.

General Instructions:

File Format:

Submit all files (source code, input/output files, and documentation) as attachments when submitting the activity.

1) List of reference papers (Excel sheet)
2) Research draft report Word file submission. Name the PDF file as YourName_CA1.pdf.

Deadline:

- Ensure your submission is uploaded to the designated platform by the specified deadline.
- Late submissions may incur penalties of 20% as per the course policy.

Submission Deliverables:

Prepared by	Issued by	Approved by
Name: Parmeshwari Aland	Name:	Name:
Designation: Asst. Professor	Designation:	Designation:
Signature: P.V. Aland	Signature:	Signature:

Core Submission:

- Research area and topic justification (300 words).
- Research title with a brief explanation (200 words).
- Preliminary findings and literature summary (500 words).
- Research paper outline (500 words).
- Introduction (300/500 words) and abstract draft (100 words).
- Gathered data submission in Excel sheet format.

Viva Voce:

- Prepare to explain and discuss your code during the viva session.
- Be ready to answer questions about the detailed concept about journals used, the publisher, and the findings collected from the portal.

Grading Criteria:

Total Marks = 25

Excellent (75-100% Marks)	**Good (50-75% Marks)**	**Satisfactory (25-50% Marks)**	**Poor or Fail (0% Marks)**	**Excellent (75-100% Marks)**	**Good (50-75% Marks)**
Definition and Conceptualisation of Research	5 marks: Excellent understanding with clear and accurate definitions as per your selected topic.	4 marks: Good understanding with mostly accurate definitions.	3 marks: Basic understanding with minor inaccuracies.	2 marks: Limited understanding with significant errors.	0-1 mark: Little to no understanding demonstrated.
Relevance and Feasibility of Research Area and Topic	5 marks: Highly relevant and feasible with strong justification w.r.t. research area chosen.	4 marks: Relevant and feasible with adequate justification.	3 marks: Some relevance and feasibility, minimal justification.	2 marks: Limited relevance, poorly justified.	0-1 mark: Irrelevant and unjustified.

Design and Alignment of Research Title	5 marks: Clear, precise, and aligns perfectly with objectives defined by the researcher.	4 marks: Clear and aligns well with objectives.	3 marks: Acceptable but lacks precision or alignment.	2 marks: Weak alignment or unclear title.	0-1 mark: Misaligned or incomprehensible title.
Depth of Preliminary Findings and Literature Review	5 marks: Thorough, critical, and well-synthesised analysis of selected topics.	4 marks: Comprehensive and well-synthesised analysis.	3 marks: Adequate analysis with minor gaps.	2 marks: Superficial analysis with major gaps.	0-1 mark: No meaningful analysis conducted.
Data Organisation and Methodology	5 marks: Data is well-organised, relevant, and methodologies used as per objective defined by the researcher.	4 marks: Data is mostly organised and relevant.	3 marks: Data is minimally organised and relevant.	2 marks: Data is poorly organised or mostly irrelevant.	0-1 mark: No organisation or irrelevant data.

Designation: Asst. Professor	Designation:	Designation:
Signature: P.V. Aland	Signature:	Signature:

Clarity and Structure of Paper Outline	5 marks: Logical, comprehensive, and well-structured data collection done for writing the Introduction part of a research paper.	4 marks: Mostly logical and well-structured.	3 marks: Acceptable structure but lacks detail or logic.	2 marks: Poorly structured with significant omissions.	0-1 mark: No clear structure or logic.
Quality of Introduction and Abstract	5 marks: Engaging, concise, and perfectly summarises the paper content written by researchers based on the gathered data.	4 marks: Clear and adequately summarises the paper.	3 marks: Acceptable but lacks engagement or clarity.	2 marks: Unclear or incomplete introduction/abstract.	0-1 mark: Introduction and abstract are missing.
